

Cookies

What Are Cookies?

A cookie is a small text file that a website stores on your computer or mobile device (each a “Device”) when you visit a website. A cookie has several different jobs. It enables the website to remember your actions and preferences (such as login, language, font size, and other display preferences) over a period of time, so you do not have to keep re-entering this information when you return to the website or browse from one page to another. Thus, cookies can be helpful to identify or authenticate your Device, and permit you to navigate through the website more efficiently. Cookies do not, however, collect user-specific information about the persons using the websites.

Cookies On This Website

Our websites (a website owned or operated by OJ Electronics A/S (“OJ Electronics”), hereinafter “Sites”) use cookies for tracking and analytics to anonymously understand how you arrived at the Site and the pages on the site that you visited. Additionally, cookies are used to personalize your experience on the Sites and for optimization of the Sites’ operation. These cookies are not used for any other purposes.

These cookies are either (1) persistent cookies or (2) session cookies. Persistent cookies remain on your Device after your browser has been closed. Session cookies exist only during your online session, and disappear from your Device once the browser is closed.

Our cookies are not essential, and you can limit the type of cookies accepted by your Device or instruct your browser to stop accepting cookies altogether. However, restricting or blocking these cookies may impact the functionality of the Sites.

BY USING OUR SITES, YOU CONSENT TO OJ ELECTRONICS’ PLACEMENT OF COOKIES ON YOUR DEVICE AND THE USE OF COOKIES AS OTHERWISE CONTEMPLATED BY THIS COOKIE POLICY.

Restricting Or Blocking Cookies

Further information about cookies and guidance on how to control and/or delete cookies from your Device is available from aboutcookies.org and www.allaboutcookies.org.

Additional Information

If you have questions about the use of cookies on this Site, want more information, or wish to discuss the use of cookies on this Site, please contact:
